SPIDER-MAN

High schooler Miles Morales was bitten by a stolen, genetically altered spider, which granted him incredible arachnid-like powers. He used his abilities to become the super hero SPIDER-MAN.

Lately, he's been having trouble keeping his heroic and private lives apart. Miles' best friend Ganke accidentally revealed to his girlfriend, Danika (Spider-Man's biggest fan), Miles' hero identity. But he hasn't had a chance to tell Miles, who's been trying to stop his uncle Aaron, who has resurfaced as the Iron Spider and is leading a team of six super-powered criminals on the heist of a lifetime...to steal a mint S.H.I.E.L.D. Helicarrier.

Miles' friend Lana, A.K.A. BOMBSHELL, was overpowered by her criminal mother and forced to join the Sinister Six's spree. Before Miles could save her and stop his uncle, the Helicarrier cloaked and disappeared. It's now on the way to a mysterious buyer...
